Ultra short throw lens can make 110 inch projection screen from as little as 51cm away

The DW773USTi is the ultimate interactive ultra-short-throw projector for the education with 3500 lumen of brightness and 1080p resolution. The projector offers a 100" diagonal projection image from as little as 51cm away from the screen surface. The DH773USTi in particular, makes interactivity even easier, making it a robust alternative to flat panels when a bigger size, such as 100 inch, is more suitable to cover the viewing distance.
