

Specifications

SMART Board® interactive whiteboard

Model SBM787V

Overview

The SMART Board M787V is a wall-mounted, front projection interactive whiteboard.

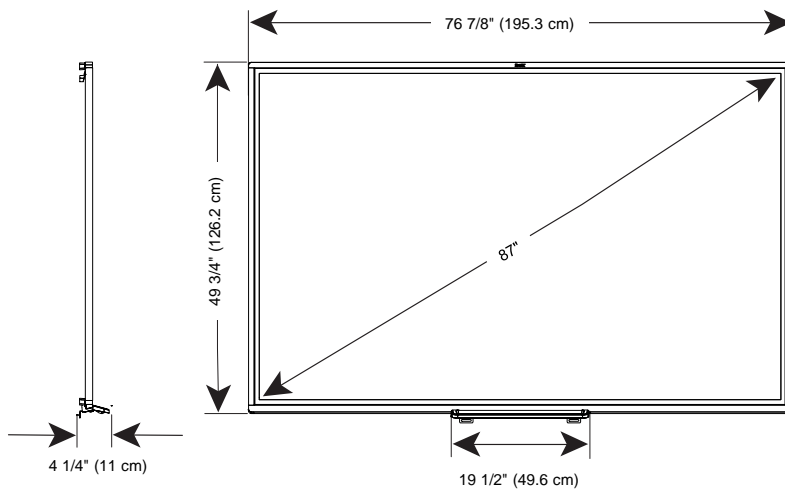

The interactive whiteboard lets you do everything you can do at your computer by touching the interactive screen with your finger or the included pen: open and close applications, browse through files, hold meetings with others, create new documents or edit existing ones, visit websites, play video clips, and more. When you connect your interactive whiteboard to a computer and a projector, your computer image displays on the interactive screen. You can write over any application in digital ink, and then save the notes for future reference and distribution.

See smarttech.com for more information on this product.

Dimensions and weights¹

Dimensions

Weight

35 lb. (16 kg)

Projection area

73 3/4" × 46 1/8"
(187.5 cm × 117.1 cm)

Shipping dimensions

81 1/2" × 54 1/4" × 4"
(206.9 cm × 137.7 cm × 10.3 cm)

Shipping weight

52 lb. (23 kg)

¹All dimensions ± 1/8" (0.3 cm). All weights ± 2 lb. (0.9 kg).

NOTES

- The SMART Board M700V series interactive whiteboard supports the following versions of SMART software:

Windows and Mac	Linux
SMART Product Drivers 12.16 (or later)	SMART Product Drivers 12.10.982.0-3 required for Ubuntu® 16.04
SMART Notebook 20 (or later) including SMART Notebook basic version	SMART Notebook 11 for Linux

- A digital projector isn't included with this model. To take advantage of all interactive features, you must integrate your interactive whiteboard with a digital projector.

Touch and gestures	Enables you to write and erase digital ink and to perform mouse functions by touching the interactive whiteboard with your pen, palm or a finger. This interactive whiteboard also features gesture capability, providing a natural and flexible way to interact with content ² .
Multitouch capabilities	Support for up to 20 simultaneous touches enables up to two users to interact with the interactive whiteboard by using the included pens or other objects, or by using their fingers to perform gestures. They can also use their palms to erase.
Touch technology	Advanced IR (infrared) with Object Awareness™ tracks the movement of objects touching the interactive surface and adjusts automatically to the tool you're using, whether it's a pen, your finger, an eraser, or your palm.
Aspect ratio	16:10
Resolution	Digitizing resolution is approximately 32767 × 32767.
Pen ledge	The durable pen ledge holds the two included pens.
Pen	Includes two passive pens.

²SMART Product Drivers must be installed to enable all features in SMART software.
